net contents **2** litres

Ingredients (% per ltr):

Nonviable fermentation extract	86.25%
Prebiotic oligosaccharides	2.38%
Plant extracts	4.44%
Manganese Sulphate	0.03%
Cobalt Sulphate	0.04%
Potassium Iodate	0.03%
Zinc Sulphate	0.50%
Ascorbic Acid	0.010%
Biotin	0.038%
Folic Acid	0.009%
Vitamin A	260,000 IU/L
Vitamin D	26,000 IU/L
Vitamin E	104 IU/L

Active ingredient: A concentrated blend of enzymes with non-viable extracts from the fermentation of:

Lactobacillus acidophilus,
Bifidobacterium animalis,
Streptococcus thermophilus,
Lactobacillus casei,
Enterococcus faecium,
Propionibacterium freudenreichii.

Ruminant

ENZYME FEED ADDITIVE

Promoting a healthy rumen in conjunction with good management practices will lead to healthier animals and help improve digestive efficiency, nutrient conversion and animal production.

BioStart Ruminant is a digestive enhancer for sheep, post-weaning calves, pre-calving heifers and cattle to aid digestive efficiency and animal well-being especially through periods of stress such as feed change, weaning, transport and climate stress. Ruminant contains the non-viable ferment of specially-selected beneficial bacteria, prebiotics, vitamins, minerals & trace elements.

DIRECTIONS FOR USE

- Lambs:** 4ml/head at weaning and prior to feed changes and transport
- Ewes/Hoggets/Rams/Merinos:** 4ml/head prior to feed changes, mating and transport
- Calves:** 10ml/head at weaning and prior to feed changes and transport
- Cattle:** 20ml/head prior to feed changes, mating and transport

BioStart Ruminant can be administered as an oral dose or diluted and sprayed over hard feed.
Withholding Period: Nil Withholding.

Storage Instructions: Store below 35°C. Keep out of reach of children.
Keep container tightly closed. Do not store diluted product

Empty container disposal: Triple rinse and return to approved recycling centre
